G-LINK™

G-LINK™

Breeze through with two.

Having twins or a second child means more to juggle, but the versatile G-LINK helps you roll through it. Independent reclining seats and adjustable footrests support different nap times, while its simple fold keeps you moving. So lightweight, the G-LINK even makes taking the stairs a breeze. From birth to years beyond, it's the one that does the work for two.

Infant support system

Seats fully recline and include plush head inserts and snap-on mesh foot barriers transforming the G-LINK into a safe and comfortable environment for your little ones.

Flexible for all ages

One child in need of a nap, while the other wants to take in the sights? No problem. Independent reclining seats and adjustable footrests ensure everyone is equally comfortable.

Deluxe canopies with **Ubuy** protection

The XL canopies with peekaboo windows allow parents to keep an eye on their little ones, while the extendable SPF 50+ sunshades protect them from the sun.

Extra storage

Double storage pockets on the back of the canopies keep personal items within reach, while the easy-access storage basket holds larger items. Included cup holder conveniently holds various size beverages.

Streamlined & lightweight

Tackling the stairs with a double stroller is no simple task. The G-LINK features a complete aluminum frame to reduce weight, while the carry handle gives you one free hand.

Quick, simple fold and self-standing

Our patent pending, one-action fold requires little effort. No foot action required. Once folded, the stroller stands on its own to help keep dirt away and can store in tight spaces.

Effortless maneuverability

What makes the G-LINK so easy to push and steer? Its lightweight design combined with 4 sets of wheels (vs. the traditional 6) so the stroller moves with you.

One-step brake

A simple click brings your stroller to a complete stop. It's also flip-flop friendly which means no stubbed toes.
